Refrigeration and Air Conditioning
Engineers (ASHRAE)

Emerging Green Builders
Columbia, MO Chapter

AAU Judo and Jujitsu Coach

Mr. Stegeman is a design engineer dedicated to providing reliable, high quality solutions to meet client goals. He has served as a project manager and designer on projects involving HVAC, plumbing, power distribution systems, fire alarm systems and fire sprinkler systems. Areas of expertise include energy audits, air to air energy recovery, chilled water systems, hot water systems, geothermal systems, VRV systems, HVAC control systems, single and three phase power distribution, solar and various lighting systems. Projects range from small retail areas to complete design of large multi-story buildings. Mr. Stegeman is committed to meeting the client's requirements and works diligently to maintain an open line of communication, ensuring client requirements are met through out the length of the project.
