"Bright Solutions in Engineering"

Wayne A. Strobe, PE

Education

University of Missouri-Columbia
B.S. Mechanical Engineering

Registration

Professional Engineer--Missouri

Mr. Strobe is a design engineer with over fifteen years combined experience in the mechanical engineering and mechanical construction field. He has served as a project manager and designer on projects involving HVAC, plumbing, power distribution systems, fire alarm systems and fire sprinkler systems. Areas of expertise include chilled water systems, hot water systems, steam systems, HVAC control systems and fire protection systems. Projects range from small retail areas to steam and chilled water power plants. Mr. Strobe is conscious of the client's requirements and works diligently to ensure these requirements are met.
